

Activity Organization

Summary is the brief description of what information the activity will cover.

Supplemental Reading

Lists books that are relevant, but not required, for the activity.

Grade Levels:

Indicates the grade range that would benefit the most from the activity.

Curriculum Correlation:

A list of numerical codes that show how the activity addresses aspects of the NC Essential Standards.

Materials:

Lists the suggested materials needed to do the activity.

Duration:

Estimated time it will take to implement the activity. This time does not include set up or material preparation.

Location:

A suggested area where the activity can be implemented. Options include: classroom, open space, Outdoor Study Area, etc.

Procedure:

Provides the step by step method for implementing the activity. **Bolded** words can be found in the Glossary section of the Appendix.

Variation:

Offers alternative procedures for implementing the activity.

Extensions:

Additional activities that expand the scope of the topic.

Learning Targets:

Provides educational objectives for teachers to assess the students' comprehension of the activity.
